“ *I was a second grade teacher at the Willcox Elementary School when I first met Chance. I found out he had a rough childhood and I was glad he was in my class. Chance was smart as a whip! One day in class we were working on a number line, filling out boxes from one to one hundred. Just for fun I pointed to an empty box and asked Chance what number goes here and he told me without hesitation! I tried another, then another. He knew each one! It was amazing to me that this second grader was so sharp! We had a good year. I briefly followed him thru the grades and he seemed to be growing and maturing. Thank you Chance for the "chance" to know you. Rob Jones*

“ *When I think of Chance, I remember a carefree, handsome, young man who was always so considerate and polite. He loved picking up our Siamese cat, Jade, and holding him every time he came over to visit. I will always miss him and remember him fondly.*
