“ First of all, I am sorry for your loss. I have been periodically searching for Hank over the last several years and came upon this obituary. I was Hank's roommate at UMKC but over time, we lost touch with each other. We shared a lot of the same interests. As a matter of fact, we cut class to go stand in line for the premiere of "The Empire Strikes Back". We caught the first show at 11:00a and immediately when back and bought tickets for the 3:00p show on the same day. He was a great roommate and a good friend. I am so sorry we didn't get to reconnect before his passing. It appears that he had a great life and a great family who will always cherish his memory. Again, so sorry for your loss.

“ My wife and I became patients of Dr. Hank when we first move to Willcox from back east, he was new and we were new and hit it off right away. Over the years my wife's health needed more and more attention and Dr. Hank was right there!! He was great at explaining things to you and wouldn't move on until you understood everything and he had answered all of your questions. He was a doctor who cared more about his patients than the bottom line at times and I admired him for that, even when we moved to Benson which was a 75 mile round trip we stayed as patients because we trusted more than anyone else. My condolences to Dr. Hank's family but he will live on in many hearts around the Willcox area!!
