“ *I cleaned for her. Last time I saw her she told me she was beating it. I feel really sad knowing she's gone. Such a cool person.*

“ *I'm so saddened to see this. I loved working with Hope at the hospital. I always knew it was going to be a good shift and my patients would be well taken care of when she was scheduled to work. I used to joke about how she would "anoint" all my patients as they would be gleaming from the A&D ointment she'd use on them after their bath/shower. She was meticulous in caring for her patients and I never had a single patient complain about her care. I used to tell her I wished I could clone her so I'd never have to work without "a Hope." Although it's been many years since we worked together I remember our shifts together fondly. She touched so many lives and helped so many people in their time of need feel more human again after she helped bathe and "anoint" them. She will be greatly missed.*
