“ *Teresa, thank you for calling me today and letting us know about your loss. Although we only knew James for a short time, he was part of our working family. Just yesterday I watered the little plant that he gave me for my birthday last year. Life is so short! We should all learn from James' death and not let his departure from this earth be in vain. We all need to be kinder, smile at a stranger, listen more. If there is anything that I can do for you, please do not hesitate to call Prayers for you and your family,*

TS

I wish there would have been a way for you to have been helped. I prayed that there would have some type of intervention. Unfortunately, that was not the outcome. I've thought about you many hours during the day and every day since we found out about your death. I'm trying the best I can to be there for Teresa and Desiree and comfort them the best I can. I pray that you are at peace and although you didn't think you were loved....all I can say is that you were so wrong. Your death has had a tremendous impact on so many lives. We love and miss you James White.
