“ *I got to know Karen as she helped the hospital through a challenging time. As many others have already said, Karen was the best at what she did but was also a kind and caring person. I'm grateful I got to know Karen when I did and will always have fond memories of her. My condolences to her family in this time of loss. Enjoy your global travels Karen! 😊*

“ Such sad news, you will be missed by your hospital family . I will think of you every time I get an invoice to approve. I always appreciated your help and patience when I'd need new vendor items. May your life memory moments help your family through this emotional time. May you travel the world with beautiful ocean sunsets and sunrises Karen. No more suffering or pain, rest now.

“ Karen had a heart of gold. She was mentally sharp. When I made a mistake she always found it. She kept me in line and was patient to remind me when I forgot things she'd asked me to do. She was one of the hardest working people I know. I appreciated her every minute.
