“ *There is a broken limb in our family tree caused by my brother's passing.*

Fly high big brother; fly free of your earthly pain and suffering.

Joe and I will try to find comfort in the good memories of our childhood, when life was less complicated.

“ I'll always especially remember "Henry" as our family knew him, for the love for his family. He was a big teddy bear, though only those who knew him well really understood just how much. He was a quiet man to the outside world, but you knew he liked you when he'd give you "that grin". By the way, he was a tremendous cook too! Our family was privileged to spend many good family times together eating saidgood food!

Henry, godspeed, say hi to all our loved ones in heaven, and I'll see you on the other side.
