“ My name is Brad King. Lloyd was my Uncle and he and my Dad loved to spend time together. They were really great about traveling back and forth to visit with each other...you could tell they really loved one another even though neither of them were overly expressive about their familial, brotherly love for one another. I am 63 and from the time I was a child, I was always amazed how capable and strong Lloyd wasespecially considering the long term effects of Polio. He farmed and ranched and labored at difficult physical jobs most of his life and he always staggered me at the amount of work he did with only one really good arm and a seriously weakened leg. However you'd never know it because I never heard him complain about his lot in life. Rather, he just did what needed doing. He always blessed me with his ability to listen...to truly listen and engage. He may not have had a great interest in what I spoke of, but he always gave the impression he was really thinking about what you said. That is a rare quality these days and one I would like to emulate in my own life. I was blessed with 3 uncles and to have all three of them together at one time was a rare treat. They all seemed to have had a tough life growing up, but all of them had families and I believe were all well respected and loved by their families....certainly by me. Lloyd, Warren (My Dad), Roy and Melvin...the King Boys were all raised around Roswell NM. I loved them all and will miss them all. I pray that I will see them all again with our Lord and Savior....Brad A King, Cloudcroft, NM
