“ *I was just thinking about Peter and wondering where he was. He and I were compadres on the adventure hiking in the coastal rainforest of southern Chile in 1991. One of the epic adventures of my life....in the unknown forests of the Andes, with only very poor maps and uncharted territory. We hardly touched the ground for the walking over downed Alerce trees and dense cover of fallen forest debris. That was an Indiana Jones adventure if ever there was one. Not long after that adventure, these high mountain forests were preserved as a reserve by Doug Tompkins, and just recently given over to Chile to oversee protection of one of the great deep forests where people seldom go. It was great to be in the company of Peter, as we wandered and wondered at that place. So sorry to hear he has gone, now almost 4 years after his passing. I'll always remember him.*

“ I just found out that Peter died ! I am so sorry to hear that. We went to school together--way way back - P.S.208 and I sat near him. He was in our class just a few years but we were all close and I shall let the others know. Peter and I last spoke a few years ago but since I live in Santa Fe, New Mexico I would hear of him occasionally. Unfortunately this condolence comes so late because I winter elsewhere and didn't hear of his passing. He was sweet and friendly and always had a smile for me. He must have liked smiles because he said that's how he remembered me. Marsha Heffler Reindorf

PS

Peter and my sister also attended PS 208. His parents and my parents were very close friends. So sad to hear he has passed on

“ I am so sorry to discover Peter has passed from us. I always enjoyed our chats whenever he was at Tres Santos (Tucson). A good man for our world. I read Rose's tribute and find it interesting that she quotes him with something that is similar to my theory - illness and a declining body is a gift to us - to allow us to disconnect from it and let it go. Blessings upon you sweet Peter.

“ I am sad to hear of Peter's passing. He was a true original. As neighbors at Las Lomas, we would chat at the mailboxes about things biological. Peter always had a unique perspective on the natural world.

“ I'm stunned and deeply saddened to learn of Peter's passing. Throughout my life he's been an environmental hero I've admired and looked up to - from the first time I got my hands on a Whole Earth Catalog. In the last decade I've had the great fortune to join Peter at various gatherings - he always taught you something about nature, the world and life in every conversation. There are many species besides humans who grieve his passing.

“ *I didn't know Peter well, but when living in Tucson was part of the environmental community. I remember being fascinated by a talk given by Peter at the University of Arizona, when he spoke of an adventure in coastal rainforest of Chile. The most memorable thing he spoke of was the necessity for caution due to the false floors created by thick layers of downed trees and accumulated debris.*

The world has lost an true advocate for nature.

Peter was a great friend and fellow New Yorker. .He was from Brooklyn I was from the Bronx natural rivals. We shared many memories of our differant childhood experiences, growing up in the City.Peter loved coming to the Bronx Zoo, as a child.We met in Tucson, Az in the 80's We had mutual friends,and met at a infamous Cafe, Cafe Ole'.. Peter has always been very supportive to me and my family I was able to watch him fight his battles to save lives and nature , He introduced me to people I would have never met. His friendships were as diversified as his interests.I always considerd Peter as a amigo and someone i could console with. I have always valued his opinions and insights. I will miss and love him forever.Oh we shared many meals together. One mermorable was at the San Francisco Yacht Club with my nephew Greg Foster.Peter always had a special love of children.As he always seemed to have a child like interest in the world arond him. Love you, miss you Peter .
